

What is Famo.us?

Famo.us is a free, open source
JavaScript platform that
enables you to build smooth,
complex UIs for any screen

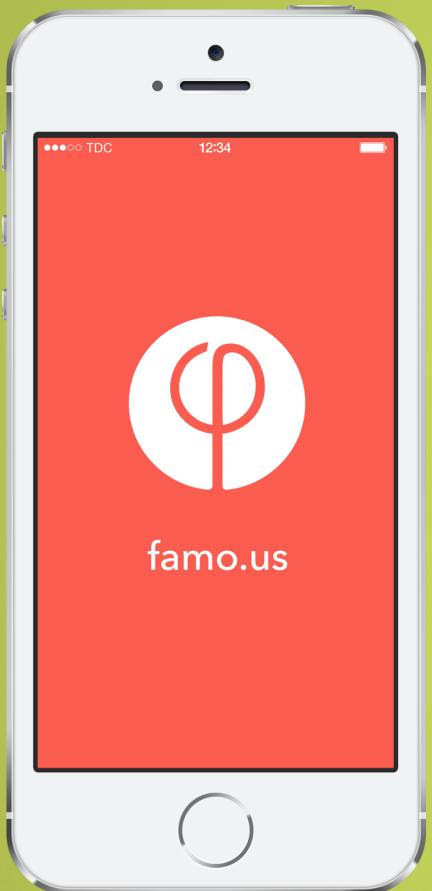

What makes Famo.us unique?

Famo.us is the only JavaScript framework to have our own open source 3D layout engine fully integrated with a 3D physics animation engine built in pure JavaScript that can render to DOM, Canvas, or WebGL.

What can I build with Famo.us?

Mobile apps on phones and tablets

What devices are supported?

Mobile phones and tablets of the iOS 4.3+, Android JellyBean+, Kindle, and FirefoxOS varieties.

How do I learn Famo.us?

<http://famo.us/university>

Thanks!
